4. OLD BUSINESS

- The weight bearing issue continues to be addressed by the City with input from the two airport organizations; LAAUC and LAOAB. The neighborhood group, LAOAB, doesn't want the weight limit raised; but, Airport Supporters and LAAUC members have pointed out the business impact and risks affecting the airport on not doing so. The City recently formed a committee to review the LAOAB

Resolution and this committee may need another 90 days to arrive at an agreement. Meanwhile, the City has the LAAUC Resolution in hand.

At some recent Neighborhood, City and/or LAOAB meetings, one or more attendees have alluded that LAAUC may not be a bonified/recognized Committee representing Lunken Airport. All persons should be reminded that LAAUC was created by City of Cincinnati Council Resolution R/83, 1990, as a Committee composed of 20 members representing Corporate, FBO/Businesses, Private and Neighborhoods abutting Lunken Airport.

5. NEW BUSINESS

- T-hangar development behind the Airport Maintenance Building is gaining momentum as negotiations are continuing with AeroTco to build T-hangars on a phased schedule. A Chronology History of the T-hangar Project was shared with the Committee.
